

Cyber Risk

Protect against data loss, security breaches and online intrusions.

Threats of data loss, security breaches, and other online intrusions are a real and growing threat to Australian businesses. Today virtually all companies handle sensitive data and information

Protect your business against cyber threat

Cover can include protection against the following risks:

- Data loss and liability: corporate data, personal data, outsourcing and network security.
- Business/Network Interruption: Covering the loss of net profit as a result of a material interruption to the insured's network, after a denial of service attack or network security breach.
- Cyber/Privacy Extortion: Covering ransom payments (extortion loss) to third parties incurred in terminating a security threat.
